USCIS Pre-Fill PDF Forms

Feature Guide — Attorney Portal

Generated: June 08, 2026
Internal Use Only — Confidential

1. What Is This Feature?

When a client completes their intake questionnaire online, the system now automatically organises all of their answers into a ready-to-use PDF document that mirrors the layout of the official USCIS form.

Instead of scrolling through a long list of raw answers, the attorney receives a **Pre-Fill Data Sheet** where every piece of client information is already placed in the correct Part and Item of the USCIS form — exactly where it needs to go.

The attorney opens this sheet alongside the blank official USCIS form and transfers the values one field at a time. No hunting, no re-reading, no reformatting.

In short: The system does the organising. The attorney does the reviewing. Together you go from intake to a ready-to-file form in a fraction of the usual time.

2. The Problem It Solves

Before	After
1. Open intake application in portal 2. Open blank USCIS form in another window 3. Read each question to figure out which form field it belongs to 4. Manually copy the answer across 5. Repeat for every field on every page Time: 1–2 hours per application	1. Open intake application in portal 2. Click “I-129 H-1B Pre-Fill” button 3. PDF downloads automatically 4. Open official USCIS form alongside the pre-fill sheet 5. Transfer values — every item is already numbered and labelled Time: ~15 minutes per application
Time Saved	~1 hour per case

3. Which Forms Are Supported

The feature currently generates pre-fill sheets for the four most common visa types handled by the firm. Each sheet covers all parts of the relevant USCIS form.

Visa Type	USCIS Form	Parts Covered	Status
H-1B Specialty Occupation	I-129 + H Supplement	Employer, Classification, Beneficiary, Processing, Employment	Live
Family-Based Immigration	I-130	Petitioner, Relationship, Beneficiary, Additional Info (parts)	Live

K-1 Fiancé(e) Visa	I-129F	US Petitioner, Fiancé(e) Info, Relationship History (3 parts)	Live
Employment Green Card	I-140	Petition Type, Employer, Beneficiary, Qualifications, Immigration History (5 parts)	Live
L-1 Intracompany Transfer I-129 + L Supplement		All parts	Coming Soon

4. How To Use It

Six steps from client submission to a ready-to-fill form:

- Client Submits Questionnaire**
 Client completes their intake questionnaire online as normal through the client portal. No change to their experience.
- Open the Application**
 Attorney logs into the Admin Panel, goes to Applications, and clicks on the client's submitted application.
- Click the Pre-Fill Button**
 In the right-hand sidebar, below the "Download Summary PDF" button, click the button labelled e.g. "I-129 H-1B Pre-Fill". The button is named after the relevant USCIS form for that visa type.
- PDF Downloads Automatically**
 The browser downloads a PDF file named e.g. i129-prefill-maria-garcia.pdf. Open it in any PDF viewer (Adobe Acrobat, Preview, Chrome, etc.).
- Open the Official USCIS Form**
 Download the blank official USCIS form from uscis.gov (e.g. the I-129). Open both documents side-by-side or on two screens.
- Transfer Values Field-by-Field**
 Each item in the pre-fill sheet is labelled with the exact Part and Item number from the official form (e.g. [Part 3, Item 1a — Family Name]). Transfer the values across. Amber fields marked "ATTORNEY COMPLETES" are your responsibility to fill from HR, DOL, or other sources.

5. Understanding the PDF Layout

The pre-fill PDF uses a simple colour-coding system so you can instantly tell which fields are ready to copy and which ones you need to fill yourself.

Colour	Meaning	Example
White / Light Blue	Pre-filled from client intake. Ready to copy directly into the official form.	[1a] Family Name: GARCIA
Amber / Yellow	ATTORNEY COMPLETES. This field has no client data — [3] Federal EIN from HR, DOL, or your own research; [6b] Prevailing Wage — from certified LCA	

Item Numbers

Every field in the pre-fill sheet displays its official USCIS item number in brackets at the top-left (e.g. **[1a]**, **[3]**, **[10b]**). This matches the item number printed on the actual USCIS form, so there is never any ambiguity about which box on the official form the value belongs in.

6. Important Notes

! Do NOT file this document with USCIS.

The pre-fill sheet is an attorney working document only. USCIS will not accept it. Always file the official form downloaded from uscis.gov with your original signature.

! Attorney review is required.

The pre-fill sheet is a starting point, not a finished product. The attorney must verify every value before it is entered on the official form. If a client entered something incorrectly, the attorney should correct it and follow up with the client.

! Client data accuracy depends on what the client entered.

The system copies data exactly as the client typed it. If a name, date, or passport number is wrong in the questionnaire, it will be wrong in the pre-fill sheet too. Always cross-check against original documents (passport, I-94, diplomas).

! Amber fields are your responsibility.

Fields such as the Federal EIN, Prevailing Wage (from DOL LCA), SOC code, PERM case number, and NAICS code are not collected from clients. These are marked amber and must be obtained from the employer's HR department or the Department of Labor.

7. Setup Required

None. This feature is already live in the attorney portal. There is nothing to download, install, configure, or enable. It works automatically for all submitted applications — new ones and any existing applications already in the system.

8. Frequently Asked Questions

Q: Do I need to do anything to enable this feature?

A: No. It is already live and works automatically for all submitted applications. Just open any application and look for the pre-fill button in the right sidebar.

Q: What if some fields are blank on the pre-fill sheet?

A: There are two reasons a field may be blank. (1) The client left it blank in their questionnaire — follow up with the client. (2) It is an amber attorney-complete field that has no client data by design — you need to obtain it from HR or DOL.

Q: Can I use this for an L-1 visa application?

A: Not yet. The L-1 mapping is planned for a future update. For L-1 applications, only the regular "Download Summary PDF" button is available for now.

Q: Is this the actual USCIS form?

A: No. The pre-fill sheet is a formatted data reference document organised to match the structure of the official form. You still need to download and complete the official form from uscis.gov and file it with your original signature.

Q: What if the client updates their questionnaire after I download the pre-fill?

A: Download a fresh copy. The PDF is generated on demand and always reflects the most recent saved answers at the time of download.

Q: Is this secure? Who can access it?

A: Only authenticated users with the Lawyer or Admin role can access the pre-fill PDF. The button does not appear on the client portal — it is admin-only. The PDF is generated in memory on the server and is never stored on disk.

Q: What does "ATTORNEY COMPLETES" mean on the amber fields?

A: These are fields that clients do not have access to — things like the Federal EIN (from HR), the Prevailing Wage (from the DOL LCA certification), or the PERM Case Number. The amber colour ensures these critical items are never accidentally left blank.

Questions or issues with this feature?

Contact your system administrator or open a support ticket in the portal.
